Specification of Lactose

2026. SHRI A.G. KULKARNI : Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) what is the difference between the specification of Lactose being imported as Homoeopathic and Lactose imported by Allopathic Trade;

(b) whether Government have received any complaint regarding misdeclaration by Homoeopathic Importers during the last three years; and

(c) if so, what action Government have taken in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI D.K. THARA DEVI SIDDHARTHA) : (a) Lactose is official in Indian Pharmacopoeia (I.P.) as well as Homoeopathic Pharmacopoeia of India (H.P.I.). The molecular weight of Lactose in Homoeopathic Pharmacopoeia of India and India Pharmacopoeia is same. Indian Pharmacopoeia prescribes following additional tests than those mentioned in Homoeopathic Pharmacopoeia of India.

1. Specific Offical rotation
2. Heavy metals
3. Water.

Homoeopathic Pharmacopoeia of India specifies tests for 'Copper' which is not mentioned in Indian Pharmacopoeia.

(b) Information was received from the Asstt. Drug Controller (India) Bombay that an importer at Bombay had imported 7 tonnes Lactose for Homoeopathic purpose which was released after testing as per Homoeopathic Pharmacopoeia of India and on the basis of declaration given by the importer that the material will be utilised only for Homoeopathic medicines. The Commissioner, Food and Drugs Administration, Maharashtra State while carrying out post-import Check, found that the importer has sold the entire stocks for non-Homoeopathic use.

(c) The Customs Authorities were informed to take suitable action against the Importer for misdeclaration.
